

Productname: camRade wetSuit XF705
SKU: CAM-WS-XF705
EAN/UCC: 8718591672965

Resistant against:

Description

To protect your Canon XF705 camera against rain and dust, use the camRade wetSuit XF705. This soft and water-resistant rain cover has a separate LCD screen cover that provides maximum flexibility of the screen during use.

The soft fabric lining minimalizes unwanted sound effects caused by wind and rain. The chance of overheating is kept to a minimum by allowing hot air to escape via the practically located openings over the vents.

The bottom of the cover can be opened and closed with a double zipper. On the left side of the suit, a vinyl window with hook and loop fasteners enables easy access to the controls.

The cover offers room to add your microphone and an opening with hook and loop fasteners is created over the hot shoe on top. Via a cuff on top of the suit, the top handle can be reached too.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storage and transportation.
