

MVS-16

**Features:**

MVS-16 is a 16 Channel 3G-SDI MultiViewer with 16x16 Matrix Switcher combination. While it features all the functionality of a true Matrix Switcher, Video and Audio of each Channel can be monitored in a wide variety of Multi View Layouts. The Multi Viewer features Dual 3G-SDI Outputs as well as parallel HDMI. All Inputs and Outputs are full size BNC and HDMI Type A connections. The unit features an integrated status display, multiple control options and lockout functionality.
