**SKU:** CAM-WS-ARRI-ALEXA-MINI-LF  
**EAN/UCC:** 8718591673061

Resistant against:

## Description

The camRade wetSuit ARRI ALEXA Mini LF is a custom made rain cover to fit your ARRI ALEXA Mini LF camera. It's made of water-resistant fabric with a soft lining that minimalizes unwanted sound effects during operation.

DoP's have the freedom to use their desired configuration of the camera due to practically located openings, a separate viewfinder cover that enables different set-ups of the viewfinder and an opening on the back of the cover that allows using multiple batteries and/or a wireless devices with antennas while keeping everything safe from wind and rain.

Special vents in the cover make sure the chance of overheating is put to a minimum. The wetSuit is supplied with clear protection covers for a normal and a long lens, making sure that any lens you might use will be well protected. When the lens is shorter than the cover this can be folded back to the correct size.

The cover has clear vinyl windows which can be opened and closed with hook and loop fasteners, for maximum visibility when adjusting the menu, audio input select level and other controls.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.
